The Preamble...

"We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America."

Foreword

For many years numerous schools in this area operated on a small scale. The main objective of these schools, as in all schools, was to produce good citizen-young men and women who would work in unison for the common good of all.

In order to coordinate their facilities and modernize their methods, two of these schools, Burnham and Derry formed a jointure on July 1, 1951. The primary objective of this jointure remains the same as that of the small school districts of not so long ago, to build better citizens for tomorrow. Even more recently, the Decatur School District has been added to this jointure.

We, the students of Chief Logan High School, must realize that we are the citizens, the builders of tomorrow. We are fortunate to live in a land of great opportunities, made possible largely through the efforts of our democratic form of government. We are not fully aware of the important part that our government plays in our lives.

In order that we may humbly display our gratitude, our thankfulness that we live in such a great country, the seniors of Chief Logan High School through this yearbook have attempted to show the similarity between our school life and our democratic form of government, so well presented in the Preamble to the Constitution.

In view of the fact that our school is in its first few trying years of jointure, the opening lines of the Preamble quite appropriately apply, "In order to form a more perfect union." "In order to establish justice," our school is proudly blessed with a capable and efficient administration. Various extra-curricular activities promote the wise use of leisure time so that we may "insure our domestic tranquillity." For the express purpose of "promoting the general welfare," our faculty is attempting to provide us with a well rounded education, primarily that we, as the future citizens, may contribute toward the common good - the general welfare of all.

Therefore, this Legend is presented with the hopes that the students of Chief Logan High School will strive toward those principles set down in the Preamble to the Constitution. We sincerely believe that through the wise use of our school years we may be better equipped to reach this goal and, therefore, be better qualified to take our place in the world.

Principal's Message

Dear Seniors:

Congratulations with wishes for a wholesome and successful life.

You may ask, "What is success?" It contains an element of loyalty to self, family, church, school, community, and nation. It involves service to those about us, especially to the less fortunate. The very essence of man's survival has been unselfishly helping his fellowmen.

Other elements of success are respect and quality of character. Seek high quality; as a medium its value is not to be underestimated. Closely associated with respect is integrity. This element reveals your soundness.

Remember that originally character was a mark carved on stone or in metal, as a symbol of ownership. If we are to be successful, we must evaluate ourselves continually.

Again, congratulations to each of you and farewell.

Sincerely,

Roy D. Wilson

Librarians

Students perform the duties of librarians in both the Burnham and Derry High Schools. Although small in size, the Derry Library offers a wide variety of reading material for its students. The thirty-two girls, who take care of the circulation, also spend some time in learning the principal library techniques. The Derry Library also sponsors the Antrim Bureau Shows and the Teen Age Book Club. The Burnham Library is now being used as a home room for the 7C section: therefore, the Staff's activities are limited, It is still used for reference work, and books are circulated, but it is difficult to maintain a regular program.

Art Clubs

Interesting murals which may be found on the walls of certain rooms in both the Burnham and Derry Schools are the work of the two art clubs. Other activities of the clubs are making posters, making decorations for school festivities, ceramics, and block printing. On the Derry photograph are shown three students posing for a sketch. On the Burnham photograph, they are discussing the features of a portrait.

Varied reactions

"The Adorable Spendthrift," was well received by Burnham audiences on November 18, 19, and 20. The play, a comedy in three acts by Roy Briant, was presented by the Senior Class of Burnham High School under the supervision of Mrs. Margaret Rhodes.

The plot revolved around a French Countess who came to a small American town to marry Hardy Mason, a recent recipient of a $150,000 inheritance. The new, arrogant airs of the Mason family nearly led to a tragic end which was averted with a very surprising and unique climax.
